

### **Production Testing or Flowback – Operators and Assistants**

Successful applicants will conduct field tests to include, but not limited to, the following:

- Conduct production tests through heater and/or separator to flare or sales line.
- Conduct flowback of perforations and/or hydraulic fracture treatments to tank and flare.
- Conduct state regulatory tests for well classification purposes
  - Gas Deliverability Testing
  - Oil Well Potential Testing

The successful applicant must know basic mathematics to perform routine field calculations (fluid volumes/rates/ratios, etc.). They must be able to rig up/rig down portable separators, heaters, flowback manifolds, sand separators and other related equipment. They must have or a Class A CDL license with an H endorsement (HazMat and Air Breaks) within 90 days of their employment date.
